Modular Belt Conveyor

★★

PVC&PU Belt Conveyor

★★★

Roller Conveyor

★★★★★

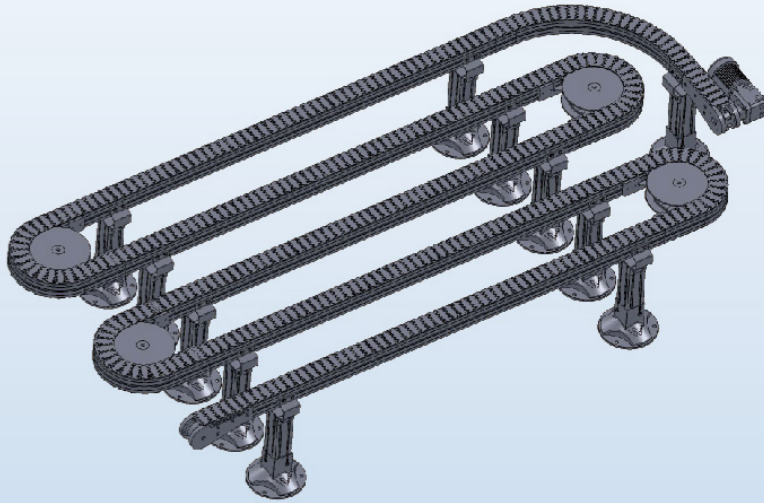

Plastic Chain Conveyor

★★★★★

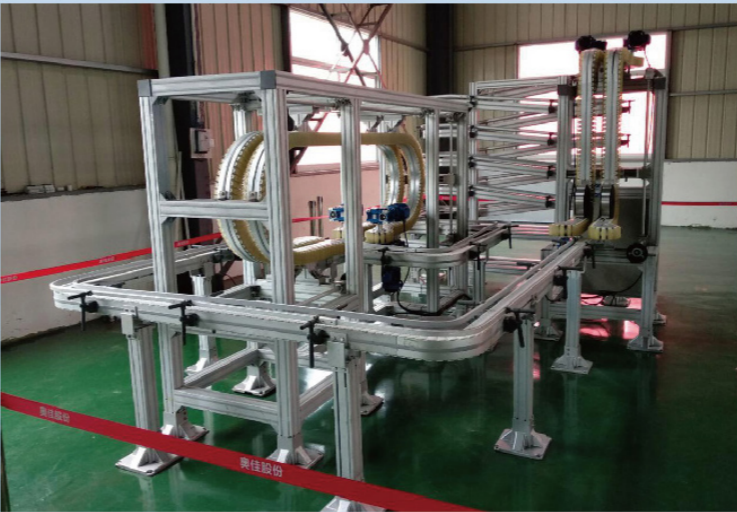

Metal Belt Conveyor

★★★★★

Normally,flexible chain conveyor is made of Aluminium profile and flexible plastic chains.Thanks to the small radius and standard components,it doesn't need too much room.It's also easy to assemble and install.  
Available width for single rail:65mm/85mm/105mm/140/175mm.For larger width,more rails is a good choice.  
It's usually used for food&beverage industry and production line.

Flexible Chain System

90 Degree Type

Double Rail
